## Blastrac BMG780SI

- Working width : 780 mm
- Working areas :
- large horizontal surfaces (grinding and polishing of concrete, mineral bases, natural stone, marble or granite, removal of coatings and adhesives...)
- Motor power : 15 kW
- Scope of supply :
- Grinding machine BMG780SI / Universal tool holder / 40 litre water tank / Users manual
- Optional starting kit :
- Dust collector BDC317P / 10 m suction hose ø75 mm
  - Many grinding discs available upon request
  - Please contact your Blastrac Expert for these options

## Main assets :

- Dust free (if connected to an appropriate dust collector)
- Separate drive systems for central and 3-disc planetary distribution
- Easy to use, ready to work, nothing to set
- No training necessary
- No vibrations, comfortable for the Operator
- Can fit all surfaces and floors, included in places with high hygiene and safety standards (food, medical and pharmaceutical industry)
- Perfect for the most recent surface finishing development (polishing of concrete, naturale stone, terrazo, resins, thin coati,g, marble, granite...)
- Many different tools, which can be exchanged within few seconds

## Industry working areas

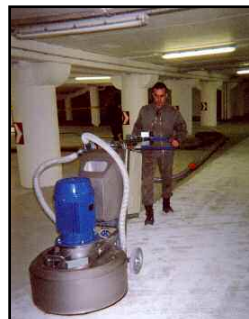

Industrial flooring

Concrete
